¹ Homer Township does not endorse religious faith. The prayer is intended to lend solemnity to the public meeting and invite an attitude of respect and consideration.

7. Highway Commissioner Report: Brent Porfilio

- a. **Smith Road/Long Run Creek Bridge Replacement** The Phase I Report is scheduled for completion this Fall and Phase II Design is anticipated to start upon approval of the Phase I Report and selection of a new consultant. Construction is anticipated to begin in the 2025/2026 construction season.
- b. **2024 Ditch Regrading and Culvert Jetting** We shot grades and will be performing ditch regrading near the Gougar/Bruce Road intersection, as well as along 163rd Street/Regents Road, and a few other locations within the HTRD. If you have witnessed any ditches which are holding water, clogged culverts needing jetting, or flooding in any unincorporated HTRD areas, please contact us so we can investigate and help.
- c. **143rd Street Widening Project TRO – status** With respect to the 143rd Street widening project TRO, HT has sued the Will County Executive and is awaiting a trial date with another judge – it has been re-assigned 3 times already. It is disappointing that the Village still has yet to follow HT's lead and has not yet filed a law suit despite the fact that their mayor has publicly stated in front of the County Board and at public meetings that they are against the widening and support the residents. I would like to suggest, if you can, please contact the mayor and ask her to urge the Village to also file their law suit in order to further help the local residents and public win. Until the law suit is resolved, we ask that all property owners along the 143rd street ROW avoid signing any eminent domain papers or offers to sell their property to the WCDOT – and if they have been offered to or signed anything, please bring copies of that paperwork to the HT Office for scanning and to send to our attorney.
- d. **Solar Lights** We just installed a solar light in the HTRD yard and it is performing rather well. We have received bids for, and will be evaluating, installing solar lights throughout the HTRD ROW in dark areas where power is not available in 2025.
